SUMMARY

Self-motivated software developer with the ability to learn and collabrate in a fast changing envioment. Worked through +2 years of self-learning and Bitdegree studio learning about web designing, Coddy.tech and Thrive Africa learning Html, Css, Javascript, React and Git. Eager to tackle web development challenges to achieve lasting solutions and impacts on user experience.

I can plan my work time effectively and work with others. And can also collabrate with others on work concepts like Customer-Centric, Agile and Scrum.
